***Response to Amendment***

Claims 17-19 are cancelled. Applicant's arguments/amendments with respect to amended claim 7 and previously presented claims 1-6, 8-16, & 20-29 filed 5/19/2006 have been fully considered and therefore all pending claims are now allowable over the prior arts of record for the reasons shown below.

***Allowable Subject Matter***

II. Claims 1-16 and 20-29 are allowed.

The following is an Examiner's statement of reasons for allowance: the closest prior arts Epstein et al. (US Patent No. 6,601,172), Wang et al. (US Patent No. 5,490,217), and Sabourin et al. (*Offline Signature Verification by Local Granulometric Sized Distribution*) taken singly or in combination do not teach or fairly suggest, among other things, converting the base image into a marked image containing a graphical encoding of the signed message by segmenting image areas to be encoded, and encoding the segmented image areas with sets of two-dimensional code patterns to graphically encode the corroborative signed message in the marked image. It is for this reason and in combination with other elements of the claims that claims 1-16 and 20-29 are allowable over the closest prior arts Epstein et al. (US Patent No. 6,601,172), Wang et al. (US Patent No. 5,490,217), and Sabourin et al. (*Offline Signature Verification by Local Granulometric Sized Distribution*).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
